

NEW HORIZON COLLEGE OF ENGINEERING

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING (Data Science)

A Hands-on workshop on “The Data Analyst’s Tool Kit”

The Department of Computer Science & Engineering (Data Science), New Horizon College of Engineering had organized a one-day hands-on workshop on “The Data Analyst’s Tool Kit” on 06/06/2024 at Data Science lab. Event started on welcome note by, Ms. Khushi student of 4th semester, followed by an introduction to Data Analytics by Mr. Kaushik Hatti.

The Data Analysis and Data visualization is the heart of Data Science. The resource person Mr. Kaushik Hatti made the entire workshop interactive with many real- world datasets and real- time problems which was very interesting and easily understandable for students.

The workshop commenced with the phases in a video editing scenario. A live demonstration using DL & ML algorithms made students to understand the process. The workshop concluded with a roadmap drawn to guide the students in choosing their path towards data analytics career.
