

## **Department of Computer Science and Engineering (DS)**

On June 19th, 2024, Computer Science & Engineering (Data Science) students visited Makkala Dhama, a school for underprivileged female students in Bettakote, Devanahalli, Bangalore, as part of their Social Outreach Program. The primary aim of this initiative was to foster a sense of compassion and awareness through constructive community service. The students took the initiative to fund, collect, procure, and donate essential supplies to the students of Makkala Dhama School. This act of generosity aimed at supporting the educational needs of underprivileged students and ensuring they have the necessary resources for their studies.

The program facilitated constructive interaction between students from different social backgrounds. This interaction allowed for an exchange of academic ideas and inspired students to deal positively with difficult situations, contributing to their overall personal development. Through this program, the Computer Science and Engineering students had the opportunity to hone their volunteering and leadership skills. They learned the importance of giving back to the community and the impact of their contributions on others' lives. The experience also helped them develop empathy and a deeper understanding of the challenges faced by underprivileged communities.

Overall, the Social Outreach Program at Makkala Dhama was a resounding success. It provided much-needed support to the school and enriched the volunteers' lives, fostering a spirit of service and leadership that will benefit them in their future endeavours. The program highlighted the importance of community service and the positive change it can bring to society.
