NEW HORIZON COLLEGE OF ENGINEERING

DEPARTMENT OF CSE - DATA SCIENCE

Event: "Jenkins for Beginners – Automating Software Builds and Deployments"

Venue: Room A005 **Time-09:00 AM-12:00PM**

The Department of Computer Science and Engineering (Data Science), New Horizon College of Engineering, organized a workshop titled **"Jenkins for Beginners – Automating Software Builds and Deployments"** for the students of the 5th semester on 29/10/26. The session was conducted by **Mr. Abhijith Saralaya, Founder and Director of SMAG-J Enterprises**, who has extensive experience in technology workshops, student training programs, career guidance, and faculty development initiatives across various engineering colleges.

The workshop focused on introducing students to the fundamentals of Jenkins and its role in automating software builds and deployments. The resource person provided hands-on guidance to the students in installing and configuring Jenkins, setting up a Maven project, and deploying the project using Jenkins. The practical session helped students understand the importance of continuous integration and continuous delivery (CI/CD) in modern software development practices.

In addition to the technical session, Mr. Abhijith Saralaya shared valuable insights into the current requirements of the IT industry and the skills expected from aspiring software professionals. He guided students on how to upgrade their technical knowledge, gain practical experience, explore emerging technologies, and continuously develop their skills to improve their career prospects and secure opportunities in the IT sector.

The workshop provided students with practical exposure to industry-relevant tools and technologies, bridging the gap between academic learning and industry expectations. The session was informative and beneficial in enhancing students' technical competencies and preparing them for industry-oriented software development practices.
